The screenshot shows a Windows-style window titled "Setup - Firebird". The window has a standard title bar with minimize, maximize, and close buttons. The main content area has a light gray background. At the top, there is a section header "Create a password for the Database System Administrator" followed by a note: "Or click through to use the default password of masterkey. *** Note - in Firebird 3 masterkey and masterke are different passwords. ***". To the right of this text is a small Firebird logo. Below the text, there are two text input fields. The first is labeled "SYSDBA Password:" and the second is labeled "Retype SYSDBA Password:". Both fields are empty. At the bottom of the window, there are three buttons: "< Back", "Next >", and "Cancel". The "Next >" button is highlighted with a red rectangular border.
